Fuel Storage and Dispensing Solutions

The Titan Environmental range of fuel storage and dispensing solutions offer reliable, secure storage for fuel in any agricultural application.

FuelMaster The Titan FuelMaster range is fully regulatory compliant in the UK and meets best practice storage methods in Ireland. Available from 1300 to 10000 and available with optional extras, you are protecting your diesel and preventing a potential spill.

TruckMaster The Titan TruckMaster is a light, portable storage and dispensing solution which offers a safe and quick way to refuel on-site, the TruckMaster can save you valuable time and money. Available in 430 or 900 litres, it simply straps to the back of a pick up or can be transported in a van.

For more information please contact the Kingspan Environmental sales office and request a detailed product brochure.

Rainwater Harvesting for Farms

KingspanWater is a comprehensive range of rainwater harvesting and water storage products for agricultural applications.

KingspanWater Commercial RainStore above ground water storage tanks deliver a unique system which will provide 100% tax deduction on first year purchases under the Enhanced Capital Allowances Scheme (in the UK), fit to existing guttering and provide water for plate cooling, plant washing and washing down parlour. Available from 1300 to 10000 litres they can help reduce water costs, reduce demand on mains water and minimise potential for flooding.

Other KingspanWater products include fully integrated underground rainwater harvesting systems and greywater recycling systems.

For more information please contact the Kingspan Environmental sales office and request a detailed product brochure.
